Letter of Interest Guidelines

All organizations applying to AllOne Charities for support must first submit a Letter of Interest [LOI].

These programs and projects should advance the mission of AllOne Charities to make a real and substantive impact on the health and welfare of the people in Northeastern and North Central Pennsylvania by improving access, affordability and quality of healthcare.

AllOne Charities will be considering grants to programs and projects that are seeking support to directly address the following focus areas: Health Care, Human Services, Health and Wellness Education and Disease Prevention for the region.

LOI's should be succinct summaries (no longer than 2 pages) of the project/program for which funds are being requested and **must** include the following information:

- Name of the Non-Profit Organization
- Amount of Request
- Name of project/program for which funding is being requested
- Purpose of project/program
- How will the project/program help to advance the mission of AllOne Charities and which areas of focus of AllOne Charities will the project/program meet?
- Are there other direct contributors either programmatic and/or funding collaborators on the project/program?
- Year of tax exempt designation under Section 501(c)(3)
- Service geography [by county] of project/program and home location of non-profit organization

Letter of Interest is to be emailed to info@allonefoundations.org

All LOI's will be reviewed to determine whether the organization and project/program will be invited to submit a full proposal to AllOne Charities.

You will receive notification - via email - of approval to submit a full proposal along with other pertinent information, due dates, proposal guidelines, etc.

For further details on eligibility criteria please see our website: http://www.allonefoundations.org
